

## Company Profile

Whether you're looking to perfect the acoustics of a performance space, for cutting-edge technology design, or to quiet a noisy product, Acentech is your resource. We provide acoustics, audiovisual, information technology, security, and vibration consulting to clients across the US and beyond.

Acentech is a multi-disciplinary acoustics, audiovisual, and vibration consulting firm with offices in Massachusetts, Pennsylvania, and California. As the direct descendant of the highly regarded Bolt Beranek and Newman (BBN) acoustics consulting group, Acentech is one of the oldest and largest organizations of its type: an unequaled resource to institutions, engineers, architects, planners, and designers worldwide.

Acentech's multi-disciplinary team brings extensive experience to critical areas of the design: architectural acoustics, mechanical systems noise and vibration control, environmental noise, audiovisual and multimedia systems, and wired and wireless voice and data networking. We work with clients' teams to create environments that improve efficiency, effectiveness, innovation and productivity.

We understand that optimal design requires a thoughtful balance of financial, technical, operational and organizational objectives and constraints. We pride ourselves on our ability to listen carefully to our clients and collaborate effectively with the entire project team – architects, facility managers, owners, engineers, construction teams, and specialty consultants – to develop sustainable spaces that people love to use.

### CONSULTING SERVICES

- Architectural Acoustics
- Audiovisual System Design
- IT Infrastructure and Planning
- Product Noise and Product Sound Quality
- Mechanical System Noise and Vibration Control
- Industrial Acoustics
- Building Vibration
- Transportation and Environmental Noise

# Jonah Sacks

## Senior Consultant

### EDUCATION

MS, Architectural Acoustics, Rensselaer Polytechnic Institute, 2004

AB, Philosophy, Harvard University, 1995

### PROFESSIONAL POSITIONS

Acentech, 2004-present

Rhode Island School of Design, 2012-present (½-semester course in architectural acoustics)

### EXPERIENCE AND RESPONSIBILITIES

Jonah Sacks consults on a variety of architectural acoustics and mechanical systems noise control projects. Since 2012, he has led Studio A, Acentech's performing arts consulting practice. His recent architectural acoustics projects include performing arts facilities at conservatories and other higher education institutions, public gathering spaces, lecture and other teaching spaces, K-12 schools, laboratories, office spaces, and residential developments. Jonah regularly performs a variety of acoustical measurements, and often creates computer models and auralizations of acoustically critical spaces. He also has significant experience in community noise evaluation and prediction for new buildings.

Jonah is a lifelong musician who has performed in many contexts as a cellist, guitarist, and bassist.

### HONORS AND PROFESSIONAL SOCIETIES

Institute of Noise Control Engineering, Member

Acoustical Society of America, Greater Boston Chapter

### REPRESENTATIVE CONSULTING PROJECTS

#### > Performing Arts
